1 Feedback about the SCAMPI Assessment

We at Aris Global Software Pvt. Ltd. thank Raghav Nandyal, Lead Appraiser of Sitara Technologies for taking us through the SCAMPI assessment, CMMI trainings and readiness reviews. Here is a quick feedback in following sections on key salient points.

2 Quality of instruction on the Introduction to CMMI-DEV V1.3

- It was very good learning for the assessment team members
- Helped us understand the way the CMMI-Dev model and in brief about the high maturity models.
- This session was very useful to prepare for SCAMPI appraisal and helped in preparing for pre-onsite reviews
- We understood the how to use the CMMI for Development to improve the effectiveness, efficiency, and quality of product development work
- Raghav helped us to understand the process areas in depth.

3 Quality of instruction and preparation of your internal team with SCAMPI appraisal team training

- The training was well structured, helped us prepare well for the pre-onsite and onsite reviews.
- Well-structured training for ATMs. This helped us to speed up the pre-onsite review
- We found the approach was very uniquely involving all of us.
- Needless to mention that Raghav has a very depth knowledge in CMMI process areas. He guided us how to prepare and proceed step-by-step which made the entire process of appraisal smoother.

4 Engagement quality during the Pre-onsite preparation for the SCAMPI A Appraisal

- Helped us to be ready with all the findings by reviewing our findings and then helped us by providing feedback daily. This helped us be really prepared and ready for the onsite.
- LA provided a well-structured plan for pre-onsite preparation. It was well executed within the timelines. LA guided us throughout the pre-onsite review and provided valuable feedback.

P.V. Nandyal

- LA guided us throughout the pre-onsite review, helped us perform the work effectively. Reviewed our deliverables and provided continuous feedback.
- LA's continuous encouragements and inputs/feedbacks made us focused during pre-onsite/offline preparation, He ensured the appraisal team members are engaged in findings the gaps and prepare the reports on daily basis. He did the reviews of our findings regularly and provide his valuable feedbacks everyday so that the same can be taken care in the next submissions. His continuous encouragement and feedback helped us to focus on our findings

5 Engagement quality during the onsite period for SCAMPI A Appraisal and findings

- The engagement of the ATMs during the Appraisal was very good; the ATMs could question the different project teams based on their findings from the pre-onsite sessions and review of the artifacts.
- ATM team was fully engaged and motivated. Allowed ATMs to organize and ask questions. Continuous support was provided to the ATMs.
- LA is highly commanding during the onsite appraisals and ensured to put the findings agreed by the appraisal team.

6 Any other benefits that your organization received

- This assessment was structured in such a way that we can find the gaps that can be identified and fix them and move towards organizational benefit and High Maturity Model.
- Areas in which the organization should focus to move on to next level. Also, highlighted the weak areas in the organization.
- Provided relevant feedback to projects on the areas of improvement, which helps the organization to focus more on next level appraisal.
- Based on these assessment findings, we need to focus on more measurements, so that development projects are monitored and controlled more effectively.
