## Saluting Our 2002 Referees

Alain Abran, Université du Québec à Montréal  
Carl Adams, University of Portsmouth  
Michael Ainsworth, Praxis Critical Systems  
Mehmet Aksit, University of Twente  
Roger Alexander, Colorado State University  
Julia Allen, Carnegie Mellon University  
Rajeev Alur, University of Pennsylvania  
Javier Andrade-Garda, University of A Corunna  
Annie I. Anton, Georgia Institute of Technology  
Mark Ardis, Rose-Hulman Institute of Technology  
Felix Bachmann, Software Engineering Institute  
Donald Bagert, Rose-Hulman Institute of Technology  
Akhilesh Bajaj, Carnegie Mellon University  
Judy Bamberger, Process Solutions  
Sergio Bandinelli, European Software Institute  
Len Bass, Software Engineering Institute  
Shirley Ann Becker, Northern Arizona University  
Earl Beede, Construx Software  
Mike Bellville, Computer Team  
Luigi Benedicenti, University of Regina  
Nikolai Bezroukov, BASF Corporation  
James M. Bieman, Colorado State University  
Stephen Blanchette Jr., Software Engineering Institute  
Guenter Boeckle, Siemens  
Barry W. Boehm, University of Southern California  
Terry Bollinger, The MITRE Corporation  
Jurgen Borstler, Umu University  
Richard Botting, California State University, San Bernardino  
Bill Bregar, Hewlett Packard  
Jim V. Brousseau, Software Productivity Centre  
Norm Brown, Systems Institute  
David Budgen, Keele University  
Eric Burger, Centigram Communications Corporation  
Hilary J. Bush, Software Measurement Services  
Eric Byrne, independent consultant  
Andy Bytheway, University of the Western Cape  
Salvatore Cambareri, SSC Consulting  
Robert L. Cannon, University of South Carolina  
Jeff Carver, University of Maryland  
Rubby Casallas, Rochester Inst. of Technology  
Pablo Cayuela, Universidad Tecnológica Nacional  
Po-Hao Chang, University of Illinois, Urbana  
Marsha Chechik, University of Toronto  
Ram Chillarege, IBM T.J. Watson Research Center  
Paul Clements, Software Engineering Institute

Robert Cochran, Dublin City University Campus  
Sholom Cohen, Carnegie Mellon University  
Derek Coleman, Hewlett Packard  
Dan Craigen, ORA Canada  
James Cusick, Bell Laboratories  
Patricia W. Daggett, EMC Corporation  
Meledath Damodaran, University of Houston-Victoria  
John R. Dance, Be, Incorporated  
Al Davis, University of Utah  
Ray J. Dawson, Loughborough University  
Kevin William Devaney, Syracuse Research Corporation  
Jerry Deville, Constux Software  
Peter Drexel, Plymouth State College  
Carlos H. C. Duarte, The Brazilian Development Bank  
Joanne B. Dugan, University of Virginia  
Jan Dukes-Schlossberg, Lockheed Martin Missiles and Space  
Robert Dupuis, Université du Québec à Montréal  
Tore Dyba, SINTEF  
Shannon R. Dye, Alcatel  
Christof Ebert, Alcatel HQ  
Henry Etlinger, Rochester Institute of Technology  
Chris Fahlbusch  
Stuart Faulk, University of Oregon  
Stefan Ferber, Robert Bosch Corporation  
Xavier Ferre, Universidad Politécnica de Madrid  
Lisa Finneran, Software Productivity Consortium  
Brian Fitzgerald, University of Limerick  
David Forder, Panasonic Wireless Design Center  
Dennis J. Frailey, Texas Instruments  
Robert B. France, Colorado State University  
Ulrich Frank, Universitaet Koblenz  
Joe Gahimer, Cummins  
Stuart Galup, Florida Atlantic University  
Erich Gamma, Object Technology International Inc.  
Kevin A. Gary, The Catholic University of America  
Morven Gentleman, Dalhousie University  
Susan L. Gerhart, ROI Joint Venture  
Anup Ghosh, DARPA  
Bob Glass, Computing Trends  
Paul Goodman, Software Measurement Services Limited  
Jaap Gordijn, Cisco Systems  
Doug Gordon, Naval Oceanographic  
Cristina Gracek, Centre for Software Reliability  
Timm Grams, Fachhochschule Fulda  
Mary Granger, George Washington University  
Åke Grönlund, Umea University

## REVIEWER THANKS

Ashok Gupta, University College London  
Frank Gutcher, The Boeing Company  
Mads Haahr, Trinity College Dublin  
Richard H. Hall, University of Missouri, Rolla  
David Harel, Weizmann Institute of Science  
Rachel Harrison, University of Reading  
Alexander Hars, University of Southern California  
Takeshi Hayama, Technical Center of California  
Jane Hayes, University of Kentucky  
Will Hayes, Carnegie Mellon University  
Dick Hedger, Quality Software Tech  
Andreas Hein, Robert Bosch Corporation  
Brian Hendersen-Sellers, University of Technology, Sydney  
Elisabeth Hendrickson, Quality Tree Software  
David Henry, Linux Network  
Wolfgang Herzner, Austrian Research Centre Seibersdorf  
Gregory W. Hislop, Drexel University  
Dan Hoffman, University of Victoria  
C. Michael Holloway, NASA Langley Research Center  
Ric Holt, University of Waterloo  
Dan Houston, Honeywell IAC  
William E. Howden, University of California, San Diego  
Chuck Howell, The MITRE Corporation  
David Hsiao, Cisco Systems  
Chung-Ming Huang, National Cheng Kung University  
Andrew R. Huber, Hifn  
Joe Hummel, University of Chicago  
Andy Hunt, The Pragmatic Programmers, LLC  
Grace Davis, Induni Tvisions  
Seshadri Iyer, MitoKen Solutions  
Robert B. Jackson, Brigham Young University  
Allan Baktoft Jakobsen, MindMate  
Ryszard Janicki, McMaster University  
Salah Jarrad, Panasonic  
Stan Jarzabek, Fraunhofer Institute for Experimental  
Software Engineering  
Dejan Jelovic, independent consultant  
Dale Johnson, The MITRE Corporation  
Natalia Juristo, Universidad Politécnica de Madrid  
Jagadish Kamatar, Advanced Information Services  
Kyo C. Kang, Pohang University of Science and  
Technology  
Rick Karcich, StorageTek  
Karlheinz Kautz, Copenhagen Business School  
Rick Kazman, University of Waterloo  
Sam Keene, Seagate Technology  
Warren Keuffel, self employed  
Khaled Khan, University of Western Sydney  
Vickie Klick, Lucent Technologies–Bell Laboratories  
Peter Knauber, Fraunhofer Institute for Experimental  
Software Engineering  
John C. Knight, University of Virginia  
Pete Knoke, University of Alaska, Fairbanks  
Guenter R. Koch, Austrian Research Centers  
Vivekanand Kochikar, Infosys Technologies  
Paul J. Krause, University of Surrey  
Charles Krueger, BigLever  
Jean-Pierre Kuilboer, UMASS Boston  
Rekha Kulshreshtha, IBM–Toronto  
Annie F. Kuntzman-Combelles, Objectif Technologie  
H. S. Lahman, Pathfinder Solutions  
Oliver Laitenberger, Droege & Comp. GmbH  
Peter B. Lakey, Cognitive Concepts  
Franz Lehner, University of Regensburg  
Timothy Lethbridge, University of Ottawa  
Anna Liu, Microsoft  
Micky Liu, Merrill Lynch  
Jan Willem Lokin, Hollandse Signaalapparaten BV  
Carol A. Long, Philips Semiconductors  
David Luginbuhl, Western Carolina University  
Michael J. Lutz, Rochester Inst. of Technology  
Tim MacAlpine, Sandia National Laboratories  
Philip Machanick, University of Queensland  
Karen Mackey, Cisco Systems  
Jonathan I. Maletic, Kent State University  
J. Christopher Marquis, Motorola  
Angela Martin, AMR & Associates  
Tomoo Matsubara, Matsubara Consulting  
Masao J. Matsumoto, University of Tsukuba, Gssm  
Michael McCracken, Georgia Institute of Technology  
James McDonald, Monmouth University  
Sue McGill, independent consultant  
Clement McGowan, Mitretek Systems  
Gary McGraw, Cigital  
John D. McGregor, Clemson University  
John McLean, US Naval Research Laboratory  
Nancy R. Mead, Carnegie Mellon University  
Nelson Medinilla, Universidad Politécnica de Madrid  
Stephen J. Mellor, Project Technology  
Atif Memon, University of Maryland  
Tim Menzies, University of British Columbia  
Bertrand Meyer, EiffelSoft  
Chris Michael, RST Research  
James Bret Michael, Naval Postgraduate School  
Ann Miller, University of Missouri, Rolla  
Dwight S. Miller, Insurance Information Exchange  
Keith Miller, University of Illinois at Springfield  
Howard Modell, Boeing Defense and Space Group  
Deependra Moitra, Lucent Technologies  
Carlos Montes de Oca, Center for Research in  
Mathematics  
Robert Montgomery, University of Missouri, Rolla  
James W. Moore, The MITRE Corporation  
Ana M. Moreno, Universidad Politécnica de Madrid  
Pat Morrison, University of Reading  
Vanessa Mosher  
Tony Moynihan, Dublin City University  
Douglas Muir, Software Productivity Centre  
Sainath Nagarajan, MISM  
Raghav Nandyal, SITARA Technologies  
Robert L. Nord, Siemens Corporate Research  
Linda Northrop, Carnegie Mellon University

## REVIEWER THANKS

Ileana Ober, IMAG  
Henk Obbink, Philips Research  
Paul O'Brien, University of the Sunshine Coast  
Don O'Neill, Center for National Software Studies  
Robert S. Oshana, ObjectSpace  
Barbara Paech, Frunhofer Insitute  
Pedro Sanchez Palma, Universidad Politécnicna d Cartagena  
Eun K. Park, University of Missouri  
Matt Peloquin, Constux Software  
Kathleen Peters, Atlin Consulting  
Shari Lawrence Pfleeger, RAND Corporation  
Mario Piattini, University of Castilla, La Mancha  
Michael M. Pickard, Stephen F. Austin State University  
Klaus Pohl, University of Essen  
James Pomykalski, Susquehanna University  
Mary Poppendieck, Poppendieck LLC  
Gerald Powell, Monmouth University  
Roger Pressman, R.S. Pressman & Associates  
Chris Procter, University of Salford  
David Raffo, Portland State University  
Austen Rainer, University of Hertfordshire  
Alexander Ran, Nokia Research Center  
Karel Richta, Czech Institute of Technology  
Juergen Rilling, Concordia University  
Linda Rising, independent consultant  
James Robertson, The Atlantic Systems Guild  
Dennis Robi  
Thomas Lee Rodgers, Lowy Mays College & Graduate  
School of Business  
Dieter Rombach, AG Software Engineering  
Glenn Rosander, Booz Allen & Hamilton  
Michael Rosemann, Queensland University of Technology  
Grigore Rosu, University of Illinois at Urbana-Champaign  
Johanna Rothman, Rothman Consulting Group  
Walker Royce, Rational  
Grant Rule, Software Measurement Services  
Bernhard Rumpe, Munich University of Technology  
Nagendra Sastry, Patni Computer Systems Limited  
Michael Schatz, Cigital  
Jeffery Schwalb, US Navy  
Norman Schneidewind, Naval Postgraduate School  
Carolyn Seaman, University of Maryland, Baltimore  
County  
Emil Sekerinski, McMaster University  
Miguel A. Serrano, Center for Research in Mathematics  
Girish Seshagiri, Advanced Information Services  
David C. Sharp, The Boeing Company  
Neal Shaw, Texas Christian University  
Terry Shepard, Royal Military College of Canada  
Tim Shimeall, CERT Coordination Center  
Forrest Shull, University of Maryland  
Randall Paul Shumaker, University of Central Florida  
Andre Sintzoff, Gemplus  
Anthony M. Sloane, Macquarie University  
Harold Smith III, Penn State New Kensington  
Andreas Spillner, University of Applied Sciences  
Srinath Srinivasa, Indian Institute of Information  
Technology  
George E. Stark, IBM Corporation  
Joyce Statz, TeraQuest Metrics  
Michael Stark, University of Maryland  
Robert Stoddard, Motorola Six Sigma Black Belt  
Wolfgang Strigel, Software Productivity Centre  
Jenny Stuart, Constux Software  
Paul Swatman, Stuttgart Institute of Management and  
Technology  
Hee Beng Kuan Tan, Nanyang Technological University  
Steve Teleki, SiberLink  
Steffen Thiel, Robert Bosch Corporation  
Dave Thomas, Pragmatic Programmers  
Martyn Thomas, Praxis Critical Systems  
Rob Thomsett, The Thomsett Company  
James E. Tomayko, Carnegie Mellon University  
Fumihito Tsunoda, Hitachi Software Engineering Co.  
Walter Turner, University of North Carolina, Asheville  
Klaus Turowski, Otto-von-Guericke-Universitat  
Magdeburg  
David A. Umphress, Auburn University  
Frank van der Linden, Philips Medical Systems  
Dan Van Duine, Honeywell International  
Rini van Solingen, CMG Trade, Transport & Industry  
Tathagat Varma, Huawei Technologies India  
Nirjanjan Veerabasaviah, Philips Software Center  
Sira Vegas, Universidad Politécnicna de Madrid  
Raghu Vemuri, AT&T  
Chris Verhoef, Free University  
Sameer Verma, Georgia State University  
Guy Vezina, Defence Research Establishment Valcartier  
Jeffrey Voas, Cigital  
Lora Voas, Naval Research Laboratory  
John Vu, The Boeing Company  
Daniel Wall, Xerox Corporation  
Dolores Wallace, SRS Technologies  
Ernest Wallmueller, IT Quality Group  
Steven P. Wartik, Software Productivity Consortium  
Alan Wasssyng, McMaster University  
David Webb, US Air Force  
David Weiss, Lucent Technologies Bell Laboratories  
Edward Weller, Bull HN Information Systems  
Keith Werkman, Lockheed Martin Space Systems  
Company  
Lee J. White, Case Institute of Technology  
Tiffany Whitt, Stonebridge Technologies  
James A. Whittaker, Florida Tech  
Karl Wieggers, Process Impact  
Jack Wileden, University of Massachusetts  
Laurie Williams, North Carolina State University  
Eoin Woods, Sybase  
Simon Wright, Integrated Chipware  
Franck Xia, University of Missouri, Rolla  
Surya B. Yadav, Texas Tech University  
Houman Younessi, Rensselaer at Hartford
