AND FEEDBACK

Comments
Request SPIN, Chennai for a session on SCAMPI
Good, interactive, useful session
The way of presentation was very good
Probably the best program in SPIN so far. It really give a great insight into the model

Interesting. We can plan more programs in future
The program is very interesting.
First quality related PPT where I was analyse fully
One of the excellent lectures I have attended
Interested session. Speaker highly knowledgeable
Excellent presentation and useful comments
Highly interactive. A firm step towards CMMI

Quite informative which may help in the long run if not now from a Management Student's perspective
A very valuable and informative lecture
Interesting and interactive
Good presentation
Informative and thought provoking
A good session and to me, an eye opener on CMMI. Very useful one; highly interactive
Eloquent and valuable speech
No comments
Value Adding
Topic is about CMMI. Focus should have been on CMMI & CMM. Instead too much emphasis on basics. Clear cut directions for CMMI & CMM to be told. More of FAQs could have been addressed.
Better infrastructural arrangement
Good
The program could have been planned to start on time. The overall program has given insight into reasons for going for CMMI which is quite interesting.
